

What is the benefit of going through a Philippine Consulate General New York-Accredited Notary Public?

You may wish to obtain the services of any notary public of your choosing.

Should you choose to obtain the services of an accredited notary public, the additional requirements of either going through the Country Clerk or Secretary of State/Secretary of Commonwealth/State Treasurer (depending on the circumstances) need not be necessary.

After having your document notarized by an accredited notary public, the document could then be immediately authenticated by the Philippine Consulate General in New York.
